

## COMMUNITY PARTNERSHIP—IT'S NOT ABOUT US, IT'S ABOUT

Starting at 0800 on Friday, June 10th, over 16 volunteers from the Virginia National Guard's Community Partnership were ready to start their 2 days of work for the Special Olympics at the University of Richmond, Richmond, Virginia. Work was needed in many areas such as setting tables and chairs, putting up canopies, painting awards stands or working on the "30 Year" center piece located in the Robins Center. LTC Denson and SMS McIntyre of the Virginia Air National Guard are the point of contacts and were responsible for the coordination of guard members in helping out for the Special Olympics. LTC Denson is always eager and excited about the guard's part in the Special Olympics and is looking forward to more volunteers for the up coming "2006 Winter Games." The hard work pays off from the above photos— it's not about us, it's about them. If you want to be a part of the Community Partnership program contact the EEO office, MAJ Ramsey, TSgt Bey, or Ms. Lynn. During our Meet and Greet event, scheduled for our full time Air/Army and civilian employees, you will get a chance to meet our Community Partners. Look for further details in our September newsletter.
