Giving Virginia teens
a second chance!

ChalleNGe Success & Community Impact

The full impact of the Academy is best seen through the eyes and stories of cadets who have completed the program. The structure and focus on the Eight Core Components has a transformational quality on the lives of cadets who meet the rigorous demands and successfully complete the program.

- Almost 4,000 cadets have graduated from Commonwealth ChalleNGe since 1994.
- 65% of cadets earn their GED's
- 18% of graduates continue their education
- 2% of graduates enter the military
- 80% of graduates join the workforce

Moreover, graduates of the Academy say the program has changed their attitudes about themselves and their outlook on the future. Many graduates have been successfully serving in the military, are gainfully employed, or are enrolled in a two or four year higher education institution.

About the Academy

Commonwealth Challenge Youth Academy is a Positive Youth Development Program that targets youth who are at greatest risk for dropping out of high school. The Academy is one of 34 Challenge's nationwide that provides a unique, non-traditional learning environment for high school students who have not been successful in a traditional school setting. Challenge is a recognized Individual Student Alternative Education Plan (ISAEP) program. As ISAEP recognized program, Challenge has the opportunity to give the students a second chance to complete their high school education and possibly earn a viable credential, the GED.

Commonwealth Challenge Youth Academy provides a disciplined and structured environment that fosters academic achievement, personal growth and development, physical training and enhanced self-esteem. As a voluntary program, Challenge strives to develop life skills, educational levels and future employment potential while instilling the highest moral and ethical standards in our students. Each cadet is supported by a mentor that encourages and supports them throughout the program.

ChalleNGe Phases

Phase I - Five month residential component at the State Military Reservation (SMR), Camp Pendleton in Virginia Beach, VA. The residential phase systematically builds the self-esteem and self-discipline of the participant through Eight Core Components (life coping skills, academic excellence, physical fitness, health/hygiene, job skills, leadership/followership, responsible citizenship and service to community). Cadets also work with staff to arrange a post-residential placement which includes employment, education, military service or volunteer service.

Phase II - 12 month Post-residential component begins when graduates return to their communities to begin their placement plan, whether it is pursuing higher education, joining the military, explore job/career opportunities, begin employment or conduct approved volunteer work. The cadets' mentor will help with the transition while continuing to serve as role models, advisors and advocates for the entire year.
